Inception

Aura Global schools is a specialized initiative of Aura Academic Institutions Pvt. Ltd. AGS endeavors to be known for its excellence in teaching, by providing students with highest quality instruction within a state-of-the-art infrastructure and resources required for comprehensive learning and overall development, bringing out the hidden talents of the students. Aura Global Schools is the first of over a dozen schools planned to be established in Kerala and the Middle East Countries, as part of a massive initiative. A special feature of this school is its salubrious campus spread over an area of 7.5 acres, enchantingly set in an amphitheatre relief surrounded by lofty hills in a sylvan milieu. Close to the town, but tucked away from the hustle and bustle, the school is located in a refreshingly tranquil and verdant ambiance, idyllic for learning.

A Green city A vibrant school

Aura Global schools is located in Panambi, a suburban scenic village, 4 km away from Perinthalmanna city. Perinthalmanna is an emerging city in Malappuram District of Kerala. It is a vibrant city with strong historical and cultural heritage and has many places of attraction for pilgrimage and tourism. Whilst Tirumandhamkunnu Temple and Thali Temple are the major places of pilgrimage, Kodikuthimala, Eravimangalam, Pathaikkara Mana, Olingara and Kulirmala are places of tourist attraction. Perinthalmanna is known as the city of hospitals. It has a number of super speciality hospitals including a Medical College and a number of small and mid-sized hospitals and clinics. As a result, a good part of the population consists of migrants in medicine-related fields.

*Different Colours;
but One Aim*

AURA GLOBAL SCHOOLS

Institution Embarked on the Wings of Innovation and Perfection

VISION

To foster a society of individuals capable of progressive thinking, creating and initiating positive change in the social, economic and cultural fabric and to impact the global community through knowledge, understanding and attitude.

MISSION

To nurture individual talents and abilities by empowering all children and helping them develop into creative, disciplined, dynamic leaders of the future, who will be active global citizens contributing richly to our nation and the world and to raise them as independent, responsible, resourceful and successful individuals with high self esteem and confidence.

PHILOSOPHY

AURA emphasizes the holistic development of a learner in body, spirit and mind and grooms children to be confident individuals who will embrace modernity without forsaking their culture and tradition. We are determined to go beyond conventional education and develop students into well moulded individuals imbuing in them values in a creative, disciplined and secure environment.

IMPLEMENTATIONS

A school with a promise...

A Promise to every child

A Promise to every Parent

A Promise to every Staff

Its a subtle promise to bring up an individual in the cradle of love, respect and freedom. With freedom comes responsibility

Message from Chairman's Desk

Mr K. K. Ashraf

Chairman, Aura Academic Institutions Pvt. Ltd.

The 21st Century demands significant change and improvement in the field of education. Our youngsters deserve the opportunity to be equipped with the tools to perform better as we live in exponential times, preparing our children for jobs that do not even exist, to use technologies that haven't been invented in order to solve problems that we do not even know are problems yet.

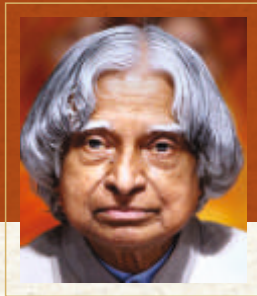

AURA and the educators we employ understand these essentials and challenges. Drifting away from textbook-dominated teaching, our students develop essential life skills, personal development and global culture. We inspire them to become lifelong learners and thereby develop in them self-confidence, mettle and nerve.

It is our aim to revolutionize and transform the educational landscape of Kerala by establishing world-class schools at par with international standards. The Board of Directors excel as successful entrepreneurs with an honest passion and whole hearted commitment to education. The group is into its 11th year of operation. During the past one decade our students have excelled in both academics and co-curricular activities scoring high marks in public exams and winning District and State level awards in Arts and Sports competitions. Our success is due to God's blessing and the endless efforts of our dedicated staff and inspirational principals.

Learning should be fun but rigorous and stimulating enough to ensure our students meet the challenges which face them.

With the continued support of our beloved children and their parents, AURA will remain a source of inspiration and a matter of pride to the people of Kerala.

"And they spoke thus..."

Dr A. P. J. Abdul Kalam: "I am happy that Aura Global Schools is focusing on multiple learning opportunities through technology so that the students can enter into the realms of research and inquiry and also robotics and aero modeling. I congratulate Mr K. K. Ashraf and the team.

I am sure that Aura Global Schools is creating an awareness among the teachers of Kerala so that they can use high technology for empowering the students with quality education with inbuilt self assessment techniques."

Dr Shashi Tharoor: "I believe it is very important to bring world class education to Kerala. I am very pleased to hear that you have, in your school (Aura) adapted a philosophy and concept that values such an approach to education."

Dr. K. S. Chitra: "I am very privileged, honoured and thankful to Aura for inviting me to be the patron of this esteemed institution. I sincerely pray that this school will bring forth children who will be good citizens working for the betterment of the community they live in."

Beyond **chalk & talk**

Besides excelling in academics, enabling children to excel in life is an integral part of our curriculum. This is only possible with a positive mind set, one that encompasses social, emotional and physical well - being. We firmly believe in the adage that, “values are caught and not taught.” Our well researched curriculum ensures that students are given ample opportunities to reflect on their thoughts, feelings and actions. Respect for diverse cultures, working in teams and collaborating with others for a common good are some of the ideas that are shared with the students.

A young girl with dark hair in braids, wearing a light-colored school uniform and a yellow lanyard with 'GLOBAL SCHOOLS' written on it, is smiling broadly at a desk. She is resting her chin on her hand. In the background, other students are blurred, and there are colorful flags hanging on the wall.

To create global citizens you have to catch them young

To be responsible global citizens, students need to understand the challenges facing the world today from the very early stages. Activities at AURA Global Schools revolve around creating global citizens and empowering them to help create the type of world they want for their future.

A young girl with her eyes closed and hands clasped in a prayer position above her head, standing in a lush green field. She is wearing a light blue school polo shirt and dark blue shorts. A lanyard with a school ID card hangs from her neck. The background is a soft-focus field of tall grass and small purple flowers.

In perfect Harmony
with Nature

The right education can take **your child far**

SECONDARY LEVEL PROGRAMME

At AURA Global Schools, education is an invitation for children to explore their world. Our unique approach and well-researched curriculum helps to sharpen their analytical, logical and creative skills and thus be successful global citizens.

Aiming for a *Bright* Future

Preparing for **future...**

We prepare students to be life-long learners, by promising them opportunities to:

- set their own goals
- measure their own progress
- solve real life problems

The Inquisitive Child of
Tomorrow

A hobby a day, keeps the **doldrums** away

At AURA, we enroll children in extracurricular activities which can build self esteem and develop social skills as well as help them to stay physically fit. We have provision for well equipped music, dance and art rooms. Lessons in keyboard, violin, painting, origami and much more are taught here. These extracurricular activities enhance their lives and builds pride in them.

GX topper in the
academic year 2020 - 2021
& Rajyapuraskar Awardee.

Krishnapriya Sunil
G4 Topper In MSAT exam
in the District Level.

Fathima Sheza
G6 English Recitation
State Level.

Jewel Joshy
G8 - District Level
Skating Champion

Parents as partners

Our parents are considered as significant partners in the holistic development of our children. Our teachers visit the homes of students to apprise the parents of the child's development in an informal atmosphere.

We also invite them to the school at regular intervals for informal gatherings in the form of 'parents fun day' and coffee mornings. These are held for parents to enjoy outdoor facilities of the school for recreation and fun.

*International Exposure
But Local Culture*

Sports for all round development

At AURA, we are committed to all-round education at the school level. We believe that sports play a key role in ensuring the comprehensive development of the child. The core curriculum is enhanced by an extensive extra co-curricular activities program that extends the education of our students beyond the confines of the classrooms. The program provides opportunities for recreation, relaxation and a release from the academic schedule, in a safe and comfortable environment. Individual talents and potential abilities of children are discovered, nurtured and sustained.

Tech Education

We prepare learners for the future by integrating technology in everyday learning. From interactive classrooms to robotics, from well equipped IT labs to student software, from Wi-Fi enabled campus to multimedia content, learners have access to all. However, we also understand that no technology can replace the human touch.

*Holistic Education through
Creativity and Curiosity*

Cyber Square

Users to Creators: AI|Robotics|IoT|Coding for Kids

Cyber Square is an EdTech company headquartered in London, UK with offices in Canada, UAE & India providing Artificial Intelligence, Coding, Robotics and IoT courses

and curriculum for British, American and Indian schools with textbooks and digital learning platform. Cyber Square is accredited by STEM.ORG. USA. Cyber Square innovative approach to teach coding enables the shift from users to creators of technology. Currently 65+ schools & groups internationally adopted Cyber Square curriculum and 150000+ students are learning through the platform. One of the recent achievements includes the official Guinness World Record with a coding project for our client Habitat School. Cyber Square has partnered with Aura Global Schools to empower students with technologies like Artificial Intelligence, Coding, Robotics and IoT. The school is following Cyber Square Curriculum as ICT subject where students practice coding from Grade 1 and learn AI from Grade 2 onwards. Cyber Square's Digital Fest event conducted at Aura in 2021 showcased the innovative projects done by the students using digital technologies.

Aura has implemented Chrysalis, which is leading a revolutionary change in the Indian education system. The program, Thinkroom, is designed to challenge conventional practices in education and bring about a transformation in the K-12 education sector. Over the last 20 years, Chrysalis has been working closely with partners from various

backgrounds to drive this change through collaborative research and curriculum development. The organization has also been serving as a knowledge partner and problem solver for both private organizations and governments. Chrysalis is continuously seeking CSR collaborations with organizations that share its vision to make a positive impact on the education ecosystem.

Global AeroSports established in 2008 is a pioneer and leader in STEM Education for Teachers and Aero-Space Education in Schools in India and the Gulf Countries. As its Chief Adviser it has Ex ISRO Chairman and Distinguished Aerospace Scientist Dr. G.Madhavan Nair, AURA is proud to be one of the very first Schools in India to introduce their unique and hugely popular Junior/Senior Engineer Program at our Schools at Kodungaloor and Perintalmanna. Students are introduced to basic concepts in "Aeromodelling, Model Rocketry Drone Technology, Space Technology, Arduino Electronics and Astronomy in a hands on practical manner. The success of these programs saw us introduce similar programs in our Associate Schools in Abu Dhabi /Al Ain and in our Summer Camps. Dr.M.R.K Menon who is their Founder has helped to conduct any wonderful programs in connection with World Space Week and also trained our Students successfully for many Science Competitions. Global AeroSports has also given a strong Foundation in STEM Based Teaching to all our Science, Maths and IT Teachers. Together we have also set up a beautiful Model Trains Museum at our Kodungaloor School which is first of its kind in India.
